# GIFT OF LIFE

Gift of Life is a crusade of the heart, touching children in peril. Together with Penang Adventist Hospital, Rotarians reach out to children who would die without cardiac surgery.

Rotarians pledge to save the lives of children who could be ours, by returning them lives which should be theirs.

This dynamic international programme is funded in partnership with New York Rotarians, matched by the Rotary Foundation Grants, subsidized by PAH's subsidized surgical charges and generous gifts from the public and private sectors.

Funds raised through The Books of Humour Project will go towards the Gift of Life - Penang (International Fund), a programme that benefits less fortunate children mainly from the South East Asia countries needing corrective heart surgery. The Gift of Life - Penang (International Fund) is a joint project between Penang Adventist Hospital's Patient Heart Fund and the Rotary Club of Penang.

The Programme has thus far benefitted over 100 children from countries such as Cambodia, Indonesia Philippines and Malaysia. The Penang Adventist Hospital's Patient Heart Fund has mended the hearts of 771 children and adults since its inception in 1988 and disbursed over RM10.6 million (as at December 2018) worth of funds to needy heart patients.
